Make Apollo your first point of call.

Apollo's latest Manual Call Points, designed and engineered to be easily installed and commissioned.

Introducing an extensive collection of EN54-11:2001 approved Manual Call Points manufactured by Apollo. Complementing the variety of products available in our analogue addressable and conventional ranges.

As standard, every Manual Call Point is available with a re-settable element, front LED indicator and a backbox for surface mounting as well as the following key features:

- Easy access, front reset mechanism
- Front facing addressing without the need to detach it from the backbox
- E-Z fit connectors
- Ergonomically designed key-shape
- EN54-11 Approved
- Continuity link provided for wiring test with addressable models
- Highly visible alarm indicator
- IP67 rated on all waterproof versions
- Optional transparent cover to prevent accidental operation

Saving lives and property from the risk of fire is a responsibility that Apollo takes seriously and that is the reason why our products including these Manual Call Points are covered by our Product Lifetime Guarantee.

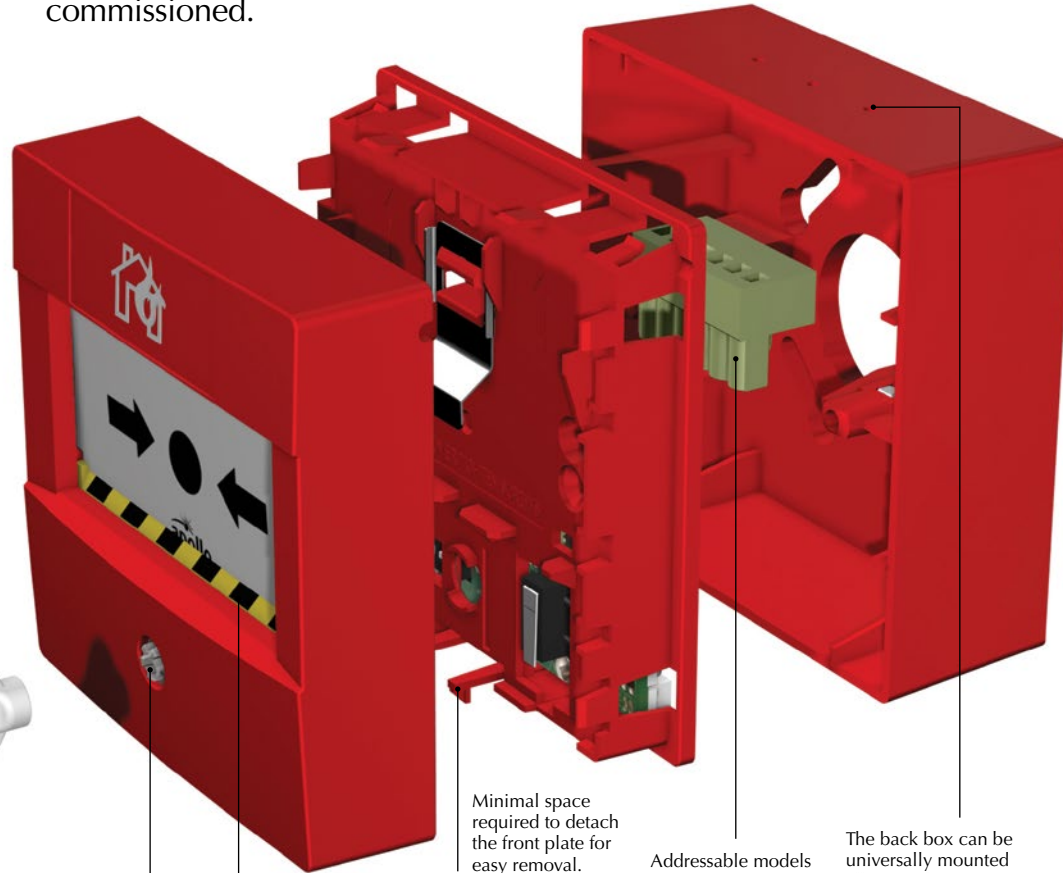

A unique key shape that has been ergonomically designed for convenient resetting and removal of front cover.

Combined LED indicator and front reset mechanism.

Highly visible alarm indicator that can be clearly seen from up to 10 metres.

Minimal space required to detach the front plate for easy removal.

Addressable models are supplied with E-Z fit connectors for quick and practical installation of cables.

The back box can be universally mounted allowing the symmetrically placed drilling guides to be at the top or bottom for cable entry.

The following Manual Call Points will be launched from June 2013:

XP95 Manual Call Point	55200-905
XP95 Manual Call Point with Isolator	55200-908
Waterproof Manual Call Point...	58200-950
Waterproof Manual Call Point with Isolator	58200-951
Discovery Manual Call Point.....	58200-910
Discovery Manual Call Point with Isolator	58200-908

Additional variants including AlarmSense, Conventional, Intrinsically Safe, Marine, SIL and Non-Standard Coloured Manual Call Points will be available from April 2014. For our latest products visit www.apollo-fire.co.uk/mcp or scan the QR code below.

To assist and demonstrate the ease of installation of our Manual Call Points, view the video installation guide available on the website www.apollo-fire.co.uk/video and Apollo's YouTube channel www.youtube.com/apollofire detectors.
