

QUANTEC

STAINLESS STEEL DISPLAYS & INDICATORS

Introducing our new range of brushed stainless steel Quantec displays and indicators.

Two displays are available, one with controls and one without. A double-gang addressable overdoor light c/w sounder is also available.

All three devices are supplied on 2.1mm double gang plates which are designed to mount on 37mm surface or 35mm flush MK back boxes.

All buttons are vandal resistant.

SPE0614000 Quantec Stainless Steel Display (with controls)

Includes a 32 character (16 x 2 line) LCD display, an Accept (A) button for accepting calls and an UP (^) and DOWN (v) button for scrolling through calls and controlling the system's divert, beeper and other features.

Operates as a standard QT608C display

Dimensions including raised buttons (WxHxD): 147 x 85 x 43mm.

SPE0633000 Quantec Stainless Steel Display (no controls)

As above but with no controls.

Operates as a standard QT608CD display

Dimensions (WxHxD): 147 x 85 x 37mm.

SPE0656000 Quantec Stainless Steel Addressable Overdoor Light c/w Sounder

Includes two ultra bright LEDs in a triangular diffuser and an onboard buzzer.

Operates as a standard QT606A addressable overdoor light & sounder

Dimensions including diffuser (WxHxD): 147 x 85 x 70mm.
